

Written with residents, fell walkers, other countryside enthusiasts and geographers in mind, this thoroughly engaging and beautifully produced book will delight all those who know and love the Lake District.

224 LARGE FORMAT PAGES ♦ FULL COLOUR THROUGHOUT  
HARDBACK BINDING WITH JACKET ♦ OVER 200 ILLUSTRATIONS

The spectacular and varied mountain landforms of the area are described and explained by a lively, readable text that is beautifully complemented by superb photographs and helpful line diagrams, making this a perfect book for visitors, residents and experts alike. For those who 'stand and stare' and wonder at the forces that created the Lake District mountain landscape, this book is a must.

# SUPERB NEW LAKE DISTRICT BOOK

Have you ever wondered why Scafell is different from Skiddaw, or why the east side of Helvellyn is different from the west side, or why Ullswater is different from Windermere, or why the summit of Helm Crag is, well, a bit craggy? If so, this book will provide some answers, together with a deeper understanding of how the fell country acquired those special characteristics that attract several million visitors to the stunning English Lake District every year. pto ▷
